Acadian Timber Corp. (TSX:ADN) (“Acadian”) is one of the largest timberland owners in Eastern Canada and the Northeastern U.S. and has a total of approximately 2.4 million acres of land under management. Acadian owns and manages approximately 777,000 acres of freehold timberlands in New Brunswick, approximately 300,000 acres of freehold timberlands in Maine and provides timber services relating to approximately 1.3 million acres of Crown licensed timberlands in New Brunswick. Acadian’s products include softwood and hardwood sawlogs, pulpwood and biomass by-products, sold to approximately 90 regional customers. Acadian also develops carbon credits for sale in voluntary carbon credit markets.

Acadian’s business strategy is to maximize cash flows from its existing timberland assets through sustainable forest management and other land use activities while growing its business by acquiring assets and actively managing these assets to drive improved performance.
